

Protection Plan Coverage

150,000 miles!

or 7 model years!

- ✓ **Engine & Fuel**
up to \$3,000
per service interval!
- ✓ **Transmission**
up to \$2,000
per service interval!
- ✓ **Drive Line**
up to \$2,000
per component
per service interval!
- ✓ **Power Steering**
up to \$1,500
per service interval!
- ✓ **Cooling System**
up to \$1,000
per service interval!
- ✓ **Brake System**
up to \$500
per service interval!

RECOMMENDED SERVICES

- FUEL SYSTEM TUNE-UP** Diesels Extra \$129.95
Our technicians quickly and effectively clean your engine's fuel injectors, combustion chamber, intake valves and throttle body. Our fuel system tune-up will restore fuel economy and performance. By removing harmful deposits, gums and varnishes from your engine.
- TRANSMISSION FLUSH SERVICE** \$129.95**
Over ninety percent of all automatic transmission failures are due to overheating and fluid contamination. With the use of custom-blended chemicals, we will safely and effectively remove harmful sludge, varnish deposits and old transmission fluid. Revitalizing seals and o-rings for longer life and better performance from your transmission.
- COOLANT SYSTEM FLUSH** \$99.95**
Coolant system failure is the leading cause of mechanical failure while driving on the highway. To help protect the long-term health of your vehicle, it is important that your coolant system be serviced. With the use of custom-blended chemicals, we safely and effectively remove old, contaminated coolant from the vehicle, then add a supplement that can help prevent minor coolant leaks, foaming and corrosion and lubricate water pump bearing.
- POWER STEERING SERVICE** \$89.95
Dirty, neglected power steering fluid can look like used engine oil and can compromise the performance of your steering system. A cleaner is injected into the steering system that is formulated to remove sludge and varnish from your power steering system. We then refill the vehicle's power steering system with the manufacturer's recommended fluid. This service restores steering performance and helps avoid premature, steering system failure.
- BRAKE SYSTEM FLUSH WITH BLEED** \$109.95
Over the life of your vehicle, brake fluid will become contaminated with water and other contaminants that can eventually lead to a weak or spongy brake pedal and in some instances, premature brake system failure. Our technicians will safely and effectively remove all old brake fluid and replace it with new manufacturer recommended brake fluid.
- DIFFERENTIAL T-CASE SERVICE** \$59.95/\$109.95 Synthetic**
Our technicians will safely and effectively remove all old differential fluid and replace it with new manufacturer recommended differential fluid.
- MANUAL TRANSMISSION SERVICE** \$59.95/\$89.95 Synthetic**

Follow our shop-recommended service intervals and you're protected for up to **150,000 miles** or **7 model years**.

Prices may change without notice.

**Some models additional

GRIMES TIRE & AUTO RECOMMENDED MAINTENANCE SCHEDULE

Every 3,000 Mile Service**

- Change Engine Oil & Filter (Up to 5 Quarts)\$26.95
- Check & Top Off Fluids
- Lubricate Suspension
- Inspect Tires & Set Tire Pressures
- Multi Point Inspection
- **Includes all shop and disposal fees**

Every 3,000 Mile Service OIL CHANGE

Up to 5 Quarts

- **Includes all shop and disposal fees**

PLATINUM\$49.95

- Lube, Oil and Filter (Up to 5 qts.)
- Top off all Fluids
- Complete Vehicle Inspection
- Engine Deposit Control and Fuel Deposit Control*
- **Roadside Assistance**
- Test Battery

- **Includes all shop and disposal fees**

GOLD\$39.95

- Lube, Oil and Filter (Up to 5 qts.)
- Top off all Fluids
- Complete Vehicle Inspection
- Engine Deposit Control -OR- Fuel Deposit Control*
- **Roadside Assistance**
- Test Battery

- **Includes all shop and disposal fees**

SILVER\$26.95

- Lube, Oil and Filter (Up to 5 qts.)
- Top off all Fluids
- Multi Point Inspection

*OIL DEPOSIT CONTROL

Prevents oil oxidation
Superior long lasting protection
Helps keep internal engine parts clean

*FUEL DEPOSIT CONTROL

Keeps all intake componets and
Combustion chamber componets clean
Maintains like new engine performance

SYNTHETIC OIL EXTRA\$30.00

MANUFACTURER RECOMMENDS:

At 30,000 Mile Service**

- Change Engine Oil & Filter
- Check & Top Off Fluids
- Vehicle Maintenance Inspection
- Lubricate Suspension
- Rotate Tires & Set Tire Pressures
- Replace Fuel Filter
- Replace Engine Air Filter
- Replace Interior Pollen Filter
- Perform Fuel System Tune-up
- Perform Transmission Flush
- Perform Coolant System Flush
- Service Front Differential
- Service Rear Differential
- Service Transfer Case

At 60,000 Mile Service**

- Change Engine Oil & Filter
- Check & Top Off Fluids
- Vehicle Maintenance Inspection
- Lubricate Suspension
- Rotate Tires & Set Tire Pressures
- Replace Fuel Filter
- Replace Engine Air Filter
- Replace Interior Pollen Filter
- Perform Fuel System Tune-up
- Perform Transmission Flush
- Perform Coolant System Flush
- Service Front Differential
- Service Rear Differential
- Service Transfer Case

At 90,000 Mile Service**

- Change Engine Oil & Filter
- Check & Top Off Fluids
- Vehicle Maintenance Inspection
- Lubricate Suspension
- Rotate Tires & Set Tire Pressures
- Replace Fuel Filter
- Replace Engine Air Filter
- Replace Interior Pollen Filter
- Replace Engine Timing Belt
- Perform Fuel System Tune-up
- Perform Transmission Flush
- Perform Coolant System Flush
- Service Front Differential
- Service Rear Differential
- Service Transfer Case
